Employer Spotlight- October 11, 2018

Back in 1946 in Detroit, Michigan, Kelly Services was founded operating as the Russell Kelly Office Service. The company was renamed Kelly Girl in 1957 and it became what we know today as Kelly Services in 1966.

William Russell “Russ” Kelly started Russell Kelly Office Service. At this time, Russ would pick up typing work from customers and have it completed at his office. After some time, Russ started receiving service requests from companies for help at their locations. Because of this, Russ came up with an idea to send his employees on temporary assignments to wherever they were needed.

Because he always had staff ready, Russ saved companies time and money. At this point, the name of his company changed to Kelly Girl and then Kelly Girl Service, Inc. in 1957. Back in those days, Kelly Girl Service, Inc. would show advertisements with women seated at typewriters stating “more Kelly Girls going to work” hence the name.

As time changed, services offered changed too. They added marketing, technical, and light industrial work and more men began to be employed. In 1966, the company changed its name to its current name - Kelly Services, Inc. Since the beginning of 2018, Kelly Services has employed 10 FSET customers!

When asked why someone would want to work with Kelly Services, Commercial Recruiter Mai Yang noted:

“Kelly Services connects people to work in ways that enrich their lives.”
