

QPS Employment Group opened their doors in 1985 with one simple truth:

The right job has the power to change lives.

It turned out to be a pretty good foundation for success. Thirty years later, they've grown from a one-room office in suburban Milwaukee to nearly 50 branches in five Midwestern states.

Along the way, they haven't forgotten what fueled that growth which was their founding commitment to "Do Right" by others, secure in the knowledge that they will in turn "Do Right" by them. It's a big reason why their customer retention rate consistently beats the industry average.

QPS doesn't refer to their customers as "temps". Rather, they refer to them as Associate Employees in order to embrace the idea that an honest day's work in exchange for a fair day's wage brings dignity to a person's life. This motto is also why everyone on their team, from the branch level through corporate headquarters, goes the extra mile to help each other succeed. You've heard it said that if you love what you do, you'll never work a day in your life. At QPS, they couldn't agree more.

QPS Employment Group works closely with the Northcentral FSET program. This is proven by the fact that we've seen over 15 FSET customers finding quality employment through QPS since the beginning of this year!

QPS is currently hiring for many positions in the light industrial, office/clerical, skilled trades, and professional industries across the Northcentral region. If you are interested in finding out more about QPS – either as an employer in search of talent or you are looking for a job yourself – head over to their website at www.qpsemployment.com or contact your local office in Wausau at 715-393-8606. They are located at 2005 Grand Ave B in Wausau and open Monday through Friday.
