

SEEK Careers/Staffing was founded in 1971 by Carol Ann Schneider, CPC, SPHR, from Grafton, Wisconsin. The name SEEK was actually created from a combination of initials from members of Carol's family. It was a tradition that names derived in such a way, would bring success to that person or business. So, from Carol's home, SEEK assignment employees were sent to serve the temporary needs of Ozaukee County business people.

The business grew and was eventually incorporated in 1975. The Grafton office expanded from Carol's home to several other buildings in town before finally settling in 1997 at their current location on Opportunity Drive in Grafton.

Carol still remains the leader of the company serving as its CEO and Chair of the Board. Her son Joel Schneider serves as President and other members of the Schneider family are currently employed and moving up the ranks of the family-run business.

Currently, there are 17 branch offices located throughout Wisconsin with local offices serving the NorthCentral FSET Region in Stevens Point and Wausau. A recent acquisition has expanded SEEK's portfolio to four branch offices in the Twin Cities market as well.

The Stevens Point Branch is located at 5474 US Highway 10 East, Suite 4 and provides services to Portage, Waupaca, and Wood Counties. The Wausau Branch, located at 210 Grand Avenue serves Marathon County as well as Marshfield in Wood County. Both fill many openings daily, weekly and monthly in various industries, including positions in banks, call centers, and in office and clerical settings. A large number of positions can also be found in warehousing and inventory, CNC machining, general labor and production, agriculture, lawn and garden, lumber, and food production.
