

Sartori Company is a fourth-generation family-owned and operated cheese company with locations in Antigo, WI and Plymouth, WI. If you visit their website (*link to <http://www.sartoricompany.com/careers/>*), you will see that family means everything to them which includes seeing their co-workers and business partners as part of their family.

Sartori began its journey in 1939 when Paolo Sartori and Louis Rossini cofounded S&R Cheese Corporation in Plymouth, WI. Throughout the years to come, Paolo received U.S. patents for a cheese curd machine as well as a curd mixing and kneading machine. They became the first U.S. exporter of cheese to Italy and Japan and started production of a freshly grated, all-natural Parmesan cheese with a longer shelf life.

In 1996, they changed their name from S&R Cheese Corp to Sartori Foods. Then in 2006, Antigo Cheese Co. in Antigo, WI was purchased by Sartori Foods. Sartori Foods was renamed to Sartori Company in 2011. 80 years later, Sartori Company is still going strong!

Sartori is currently hiring for Wheel Production Team Members at their Antigo, WI facility! The main duties of this position include but are not limited to operating packing equipment to fill cheese wheel molds with cheese curd, moving and configuring the wheels to ensure proper wheel form, palletizing and forklift use, trimming cheese, and cleaning the production area and manufacturing equipment.

This position does require the ability to repetitively lift 20-30 lbs. along with flipping and lifting product above shoulder height and waist down to floor level. Please keep this in mind as you consider applying for this position.

If interested in working at Sartori, please discuss your interest with your FSET Case Manager. Applications can also be completed online here (*link to <http://www.sartoricompany.com/careers/openings/antigo-wi/wheel-production-team-member.html>*)
