

Since they were founded in 1977, Superior Diesel has grown to become one of the largest providers of engine power solutions for off-highway equipment in North America. They currently operate in 19 states throughout the Midwest, Northeast, and Atlantic coast regions of the United States. Locations include Rhinelander, WI; Seville, OH; and through their wholly owned subsidiary, Bell Power Systems in Essex, Connecticut.

Superior Diesel assembles industrial diesel, marine diesel, and industrial gas value-added engine packages just to name a few. They are an authorized dealer for John Deere, Kohler, Zenith, and Funk Drivetrain Components.

Superior Diesel makes a commitment to their employees in providing whatever is needed to promote success. They believe that the job can be taught and a positive attitude is everything. When asked why someone would want to work at Superior Diesel, Production Supervisor Eric Schoeneck said in a nutshell:

“We develop the people to develop the business”

Currently, Superior Diesel is hiring at their Rhinelander, WI facility. Open positions include Production Assembly Technicians and a Buyer. All are first shift positions with potential overtime.

For more information regarding open positions at Superior Diesel, please visit their website at:

<http://www.sdiesel.com/employment-opportunities/>.

If interested in any of these positions or if you have any questions, you can stop in at their facility between 8:00-4:00pm on weekdays at 3250 S. Fox Ranch Rd, Rhinelander or talk with your FSET case manager.
